

ANTIGUA AND BARBUDA

→ **Antigua and Barbuda** currently has a public policy regarding soils, which was created in 2019 and has a multi-thematic character.

The thematic areas covered are detailed below:

● SOIL CONSERVATION: 1

- Environmental Protection and Management Act N° 10 of 2019. Date of text: 07-06-2019

● SOIL QUALITY: 1

- Environmental Protection and Management Act N° 10 of 2019. Date of text: 07-06-2019

● SOIL MONITORING:

- Environmental Protection and Management Act N° 10 of 2019. Date of text: 07-06-2019

As a summary, a table is detailed below in which the public policy mentioned above is displayed and what are the thematic areas with which it is linked:

PUBLIC POLICY	THEMATIC AREA		
	SC	SQ	SM
Environmental Protection and Management Act N° 10 of 2019			

SC: Soil conservation; SQ: Soil quality; SM: Soil monitoring.

Finally, the following table shows the details of said policy:

ENVIRONMENTAL PROTECTION AND MANAGEMENT LAW NO. 10 OF 2019.

This Law intends to provide for sustainable environmental protection and the management of natural resources, to assign administrative responsibility for the management of environmental matters; to give effect to Antigua and Barbuda’s treaty obligations with respect to the environment and to provide the framework financial mechanism to satisfy the requirements of the Act and for other related matters.
